Who She Is

Mid 20's go-getter – artist

Her spirited art hangs in trendy restaurants, boutiques, galleries and showrooms in Toronto and in private collections around the world. Witty with a magnetic personality, she has gained much of her creativity while travelling the globe enjoying the little pleasures of life. The cultural impact of her travels shows through in various aspects of her brightly coloured paintings and funky jewellery pieces. Music also plays an important role in Jessica's artistic evolution. It's not unusual for her to paint to the haunting melodies of Bjork or to the upbeat rhythms of Jeff Buckley.

Young and multilingual she is an accomplished gymnast, athlete, a skilled piano player and a graceful dancer. She breaks down her art into four distinct categories:
